

SARAVANAN JAISANKAR

+91 - 6379526929 | saravanan12220@gmail.com | [LinkedIn](#) | [GitHub](#)

EXECUTIVE SUMMARY

Computer Science Engineering student with hands-on internship experience in data analytics and machine learning. Skilled in using Python and Pandas to process complex datasets and train predictive models. Passionate about transforming raw data into clear, visual insights to solve real-world technical challenges.

EDUCATION

Dhanalakshmi Srinivasan College of Engineering and Technology | Mamallapuram
B.E. in Computer Science and Engineering | 2023 - 2027 | CGPA: 8.11
Govt. Model Higher Secondary School | Ariyalur
Higher Secondary Certificate (HSC) - Biology and Mathematics Stream | 2022 – 2023 | Percentage: 83%

SKILLS

Languages: Python, SQL | **Web Technologies:** HTML, CSS | **Database:** MySQL
Tools & Software: Power BI, Excel, GitHub, VS Code, Jupyter, Fusion 360
Concepts: Data Cleaning, Data Structures & Algorithms, Machine Learning, NLP

EXPERIENCE

BIG-SI-BUCKS INNOVATION PRIVATE LIMITED

Data Science Intern | Jul 2025 – Aug 2025

[Certificate](#)

- Cleaned and formatted raw datasets using Python and Pandas to prepare them for analysis.
- Conducted exploratory data analysis (EDA) to identify basic trends, missing values, and data patterns.
- Created visual graphs and reports using Matplotlib and Seaborn to present findings to the team.

AdroIT Technologies (via Naan Mudhalvan & IBM SkillsBuild)

Full-Stack Development Virtual Intern | Dec 2025 – Feb 2026

[Certificate](#)

- Built and optimized core server-side logic using Python to support enterprise applications.
- Managed database connections and secure file handling to ensure efficient data storage and retrieval.
- Collaborated with a development team to debug backend issues, test API endpoints, and improve overall system performance.

PROJECTS

Global Restaurant Rating Predictor (Ensemble Learning) | *Accepted Research Paper*

- Engineered a restaurant analytics solution using a global dataset of 7,403 restaurants, performing currency standardization, data preprocessing, and missing value handling to improve data quality.
- Developed and evaluated multiple machine learning models, including Multilayer Perceptron (MLP), HistGradient Boosting (HGB), and Extra Trees Regressor, and built a stacked ensemble meta-learner achieving an R^2 of 57.03% and RMSE of 0.3645.
- Deployed the predictive model through an interactive Streamlit dashboard hosted on Hugging Face Spaces, enabling real-time business strategy simulation and customer discovery.

Enterprise Help Desk Ticketing Application | Feb 2026 |

[Link](#)

- Developed a full-stack ticketing system to track and resolve user issues, completely automating the manual ticket routing process.
- Implemented secure user authentication logic and integrated a structured database for managing support requests.
- Programmed the backend workflow to include Service Level Agreement (SLA) tracking, ensuring tickets were addressed within targeted timeframes.

PUBLICATIONS

[Certificate](#)

Saravanan J, et al. "Exploratory and Predictive Analytics of Global Restaurant Markets with Zomato Price-Rating Data Using Ensemble Regression Models." To appear in *Proceedings of the 2026 IEEE-NexoTech International Conference on Advanced Technologies and Innovations (ICATI)*. (Accepted for Publication).

CERTIFICATIONS

- Dive Deeper into GA4 Data and Reports** | Google | Nov 2025 [Certificate](#)
- Data Science & Analytics** | HP Life - HP Foundation | Nov 2025 [Certificate](#)
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional** | Oracle | Oct 2025 [Certificate](#)
- Big Data 101** | Infosys Springboard | Aug 2025 [Certificate](#)
- Career Edge - Young Professional Course** | TCS iON | Jul 2025 [Certificate](#)
- GenAI Powered Data Analytics Job Simulation** | Forage & TATA | Jun 2025 [Certificate](#)
- Power BI for Business Professionals** | Infosys Springboard | June 2026 [Certificate](#)
